

## How is the Current Economic Crisis Impacting the Future of the World's Economy?

Seminar and presentation of the book: *European Economic Law, 2nd ed.*, by Alberto Santa Maria, Kluwer Law International, 2009

The panel will present authoritative viewpoints from industry leaders on the changing world economy and will discuss legal ramifications both domestically and abroad. It will cover issues such as financial markets, the WTO, the impact of regulation and the future of the financial system.

This discussion is targeted for business executives, government representatives, attorneys, professors, journalists and other professionals with an interest in international finance law and trade.
